Note 5: From 2016/17 onwards, all individuals are entitled to the same personal allowance, regardless of the individual's date of birth. This allowance is subject to the £100,000 income limit which applies regardless of the individual's date of birth.

Note 6: This allowance is reduced by $\pounds 1$ for every $\pounds 2$ of income in excess of the income limit, but married couple's allowance will not reduce below $\pounds 3,530$.

Note 7: Personal allowances are subject to the \pounds 100,000 income limit, which applies regardless of the individual's date of birth. The individual's personal allowance is reduced where their income is above this limit. The allowance is reduced by \pounds 1 for every \pounds 2 above the limit, down to zero.

Note 8: This allowance is available to married couples and civil partners who are not in receipt of married couple's allowance. A spouse or civil partner who is not liable to income tax, or not liable at the higher or additional rates, can transfer this amount of their unused personal allowance to their spouse or civil partner. The recipient must not be liable to income tax at the higher or additional rates.

If the couple marry or register a civil partnership, they will get the allowance on a pro-rata basis for the rest of that tax year. If one of them dies or there is a divorce or separation, the allowance continues until the end of the tax year.

Note 9: From April 2020, this will be limited to employers with an employer NIC bill below £100,000 in the previous tax year.

Any deemed payments made to off-payroll workers do not count towards the £100,000 employers (secondary) class 1 NICs total. You cannot claim employment allowance for these workers.

Employment allowance cannot be claimed for off-payroll workers.

Pensions	£	£
Annual allowance (note 10)	40,000	40,000
Lifetime allowance (note 11)	1,073,100	1,073,100
Money purchase annual allowance (note 12)	4,000	4,000

Note 10: The annual allowance is a limit to the total amount of contributions that can be paid to a <u>defined</u> <u>contribution</u> pension scheme and the total amount of benefits that you can build up in a <u>defined benefit</u> pension scheme each year, for tax relief purposes.

Since 6 April 2016, individuals with a high income have had a tapered annual allowance, where for every £2 of adjusted income over a threshold, an individual's annual allowance is reduced by £1. From 6 April 2020, the Tapered Annual Allowance applies for individuals with 'threshold income' of over £200,000, and 'adjusted income' of over £240,000. The annual allowance will be £4,000 for individuals with total adjusted income (including pension accrual) over £312,000.

From April 2021, the annual allowance for individuals with total income (including pension accrual) of over £312,000 will be £4,000.

Note 11: The lifetime allowance will remain same at the current level of £1,073,100 until April 2026.

Note 12: The annual allowance is currently capped at £40,000, although a lower limit of £4,000 may apply if you have already started drawing a pension.
