C19 BUSINESS NEWS UPDATE

WELCOME TO THE LATEST NEWS ON BUSINESS, GOVERNMENT AND THE ECONOMY

COVID19 – IS THE ‘SECOND SPIKE’ COMING?

The Government is taking further measures to stem the recent rise in the number of coronavirus cases, which does not look like a gradual move upwards but a more obvious spike. The rate of positive tests has increased amongst younger people and appears consistent across the country.

There are several local restrictions because of Covid-19 and the Government is now reducing the number of social gatherings in England from 30 to 6 commencing 14 September. The law change will ban larger groups meeting anywhere socially indoors or outdoors although it will not apply to schools, workplaces or Covid-secure weddings, funerals and organised team sports.

The death rate remains low and we all hope this surge has a very different outcome to the last one. Like many businesses we have taken steps to maintain social distancing and protect our employees and clients and think that now it is a good time for all of us to reiterate these and make sure everyone is protected as best they can.

BREXIT – WILL THE UK AND THE EU REACH A DEAL?

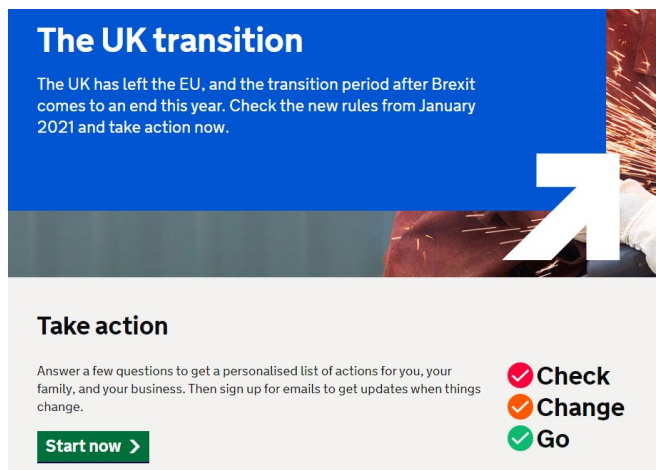

Brexit is in the news daily and as we watch the negotiations unfold and the political “twists and turns” happening it is important to note the transitional UK EU arrangement ends regardless of a “deal or no deal” on the 31 December.

The Government is set to unveil its post-Brexit trading law on how it intends to police UK trade between different parts of the country today. This has already caused much comment over elements which could allow ministers to modify the UK’s existing exit agreement with the EU.

We are not here to comment on the politics or the negotiations but remind businesses that the key date to note for any new deal is the 15 October by when the UK wants a summit with the EU to agree terms. This would allow time for the deal to be ratified by both parties. This timeline may move!

What we can say is that over the next few months we will keep all our clients up to date with the latest news and provide practical guidance on what steps to take before and after the 31 December 2020.

The Government has produced a personalised list of actions for you, your family and your business to help prepare for Brexit. See: <https://www.gov.uk/transition>

BOUNCE-BACK PLANS LAUNCHED FOR CONSUMER AND RETAIL INDUSTRY

Branston Adams – Accountants and Business Advisors

A 'bounce-back' plan of trade measures for the consumer and retail industry has been announced by the Department for International Trade (DIT) to help support businesses impacted by Coronavirus. These are:

- New measures to help boost exports and increase British retail firms' readiness to sell overseas
- New plans include creation of a Consumer and Retail Export Academy to help businesses export, via a digital learning syllabus

DIT say "The new measures will offer immediate support to businesses by ensuring specialists provide advice on online retail and international marketplaces. The launch of a new Consumer and Retail Export Academy will provide businesses with the critical knowledge, skills and networks needed to increase exports. The plan will also outline long-term support for the sector as new export opportunities arise from trade deals being negotiated with the US, Japan, New Zealand and Australia."

Further details are expected, and we will bring you the facts of the support when we receive them.
